

## Dear Family Evans,

Hello. My name is Klaudia Kovacs (Claudia), I am from Romania, hungarian nationality. I am 24 years old, 1.70 m tall, 60 kg.

I have got a sister, 17 years old, so I am the big sister in the family. My mother (43 years old) runs a small fashion shop, where she sells smart clothes for ladies. She runs this shop since 2000, she likes her job so much.

My dad (45) is electrician, he is very busy all the time, he goes away often doing jobs all around the country, he works so hard, my lovely dad.....

When I was younger, and my sister was little, I had to look after her a lot, because my dad wasn't at home most of the time, and my mum had to do the housework, and other things. At the beginning I found this 'job' quite hard, because it took a long time to teach my sister what is she allowed to do, what she is not allowed to do, and she was naughty to be honest. But it was everything all right after a time. We played a lot together, I can remember exactly, we had a rocking horse in the playroom, my dad bought it for Christmas, my sister adored it. We still keep it in the living room.

When my parents went out in evenings, I read her bedtime stories, and put her to bed. It was a good fun, I love my sister so much.

I graduated the university in 2011, I studied economics. I had a job at a transport company, called Waberer's, as a secretary. After 3 months work there, they offered me another job, coordinator of transport. Only what I was worried about it was the english, they required a high level of english. So I refused the job, and I lost my secretary job unfortunately.

I was so disappointed, I decided to change something in my life, to do something different. I read your advertisement that you are looking for an au pair, I decided to apply to this job, because I think I can do this, and I want to do it, I adore spending time with children, and I am happy to do the housework as well. It would be great to learn your language, to know more about your culture. I like your kids, they look so cute on the photos you sent me throw.

I take pleasure in the simple things in life. I enjoy being outdoors, being with my friends, going for walks, visiting places, camping trips, cycling, swimming is my favourite. I like reading books in horrible rainy days, when I have to spend my spare time indoors.

I passed my driving test 6 months ago, and I would be happy to drive in the UK after some practise.

If you would like to know any more information about me please feel free to make contact with me.

Thank you very much for your interest in my application.

Yours sincerely:

Klaudia Kovacs
